

USER MANUAL

Neck Fan

Thank you for purchasing the Neck Fan. To make it convenient for you to use our product, please read the User Manual carefully before using.

Product Functions

Product Features

1. Fashion outlook with ergonomic design, making it more comfortable to wear.
2. Ultra-thin linear design, light and compact, liberating your hands.
3. Multiple gears of wind output, meeting different life scenarios.
4. Turbine fan blade design, pressurized air duct, strong wind and low noise.
5. Button periphery inlaid with soft light, indicating the state explicitly.
6. Food grade silica gel hose, skin-friendly and comfortable.
7. 304 stainless steel outer lining, offering fast cooling and fashion.
8. Built-in battery and super endurance.

Operation Instructions

Open the left and right side of the fan slightly, with the air outlet facing up. Hang it on your neck and long press the power button to start the fan. Then the wind blows from the air outlet to your face and neck, creating cool and refreshing experience.

Long press the power switch to start the fan; at the moment, the fan enters Gear 1 of wind power. Press the switch again to enter Gear 2. Press for the third time to enter Gear 3. Press for the fourth time to turn it off. Long press the power switch to shut down.

Charging Description

Please use the standard Type-C charging cable to charge the fan.
Indicator Light Status Description:

Indicator Light Status	Meaning
Blue light flashing slowly	Normal working
Red light flashing invariably	Charging
Blue light flashing invariably	Full battery power
Red light flashing quickly	Power < 10%, automatically shut down after 30S
Red light flashing (three times)	Serious power shortage
Light not flashing	Shutdown

Specifications

Product Model: HP-F6

Battery Type: Lithium battery

Battery Capacity: 2000mAh (3.7V/7.4Wh)

Working Hours: 8 hours for Gear 1; 4.5 hours for Gear 2; 2.5 hours for Gear 3

Product Material: ABS + Silica gel + SUS304

Product Size: 210*168*56mm

Product Net Weight: 216g

Charging Time: Approximately 2-3 hours

Type-C Input: DC 5V 1A Max

Implementation Standard: GB4706.1-2005
