Charging instructions

Charging Description

1. Insert the standard TYPE-C cable into the charging port on the top and connect the charger.
2. It takes about 1-2 hours to fully charge. Please fully charge the product before using it for the first time.
3. When charging, the blue indicator light corresponding to the battery level flashes slowly. When all blue lights are steady on, charging is completed.

Battery inquiry

When the lights are off, click the power button or color temperature button to wake up the battery indicator. One blue light corresponds to 25% battery, two blue lights correspond to 50% battery, three blue lights correspond to 75% battery, The four blue light corresponds to full power.

- * When the battery power is low, the blue light flashes quickly to alarm, and the light will be forced to turn off after 30 seconds. At this time, the device should be charged as soon as possible.

Parameter

Model	D16
Color temperature	2800K/4000K/5500K
Battery Type	Lithium polymer battery
Battery capacity	1000mAh
Product Size	25.5*20.5*2.6cm
Product Weight	140g
Material	ABS+Silica gel
Input	DC 5V 1A
Rated power	1.5W
Work time	5-30Hour (depending on the brightness level)

Packaging Accessories

Neck hanging reading light	x 1
TYPE-C charging cable	x 1
Manual	x 1
